

**FRABOADESIVI**

**A story based on trust**

Since 1957 FraboAdesivi has been developing and distributing adhesives for specific B2B markets. First-rate Technical service, high quality of the products and reliability have contributed to gain the trust of customers all over Italy and abroad. FraboAdesivi stands for sustainable innovation, high performances and technical support.

**FraboAdesivi, one step further**

**FRABOADESIVI**

FraboAdesivi, an Italian family run Company, is one of the market leaders in the production of water based and solvent based adhesives. We focus on specific markets: footwear, leather goods, upholstery and foam, wood and laminates, maritime and insulation.

Our added value comes from the R&D activity, an accurate selection of raw materials, careful control in production and a quick response to market demand.

# FRABOADESIVI

Our catalogue includes solvent-free, one and two-component in water dispersion adhesives, known as **Aquagum**, as well as solvent based sealants known as **Respan**, **Pression** and **Pivigum**. They all satisfy the needs of different markets thanks to a varied offer and high performances. The close cooperation with the customers allows FraboAdesivi to have their wishes integrated in our innovations.

**AQUAGUM**
